Buddy the Human

A storybook

Provided by the Imperial Education Commission

Today Buddy is going to start a new world. Buddy works for IRON. IRON sends people to start new worlds.

Buddy gets dressed and eats his breakfast. He picks up his trunk and makes sure it's not too heavy. Buddy has everything he needs to be a great pioneer!

Buddy is an hour early like he is supposed to be. The nice people at IRON train him to be a pioneer. They ask him lots of questions and stamp his passport. Buddy goes to a special room to get on the Televolley.

Bertrand is also supposed to go to the new world. Bertrand isn't early. IRON doesn't have time to train him and check him in. Bertrand doesn't get to go to the new world. Bertrand has to sleep in the gutter now. Bertrand is sad.

The Televolley comes with a loud crash. Buddy picks up his trunk. It is easy, because Buddy's trunk is not too heavy. Buddy gets on the Televolley with his trunk. He is ready to go!

Bennie tries to pick up his trunk, too. Bennie is supposed to go to the new world, but his trunk is too heavy. He can't move it fast enough. Bennie is trying to put his trunk on the Televolley when it leaves. Part of Bennie goes to the new world. Part of Bennie stays behind. Poor Bennie!

Buddy and all the other pioneers are excited when they get to the new world. Buddy remembers his training and stays with the group. The pioneers unload their trunks quickly and get away from the Televolley. They are ready to find their camp!

Beatrice is excited when she gets to the new world, too! Beatrice didn't pay attention during training, though. Beatrice goes into the woods alone to get rich. No one sees Beatrice for a while after that.

Buddy and the other pioneers go into the forest together. They find a trail. The trail leads them to an old, old building. The building looks good, but it needs paint! Buddy is careful. He stays with the other pioneers. They make the building safe together.

Bim wants a big room all to herself in the new old building. "I get the big room!" she shouts as she runs into the building without anyone else. She finds the big room. The big native inside it would rather have a snack than to have Bim there. Bim makes a good snack, click-clack. Shame on Bim's family.

Buddy gets to work. Buddy knows how to cut wood. Everyone needs wood. Buddy has a lot of work and everyone likes it when Buddy works for them. Buddy is important!

Bob wants to work. Bob only knows how to play the guitar. Everyone likes when Bob plays the guitar. They can't pay Bob because Bob doesn't make anything they need. Bob gets hungry. After 4 months without any food, even the flies don't like Bob anymore.

Buddy cuts a lot of timber. Buddy helps his Guild make all the timber the other pioneers need. Buddy does what his Guild asks and gives all the timber he makes to the Guild. Buddy's Guild promotes Buddy.

Basil works hard cutting rocks. Basil gives most of his rocks to his Guild, but Basil hides some and sells them to people who don't like his Guild. When M.O.M. finds out, she isn't happy. M.O.M. calls court, and court puts Basil in the stocks. Now no one trusts Basil and he can't get a job.

Buddy is in charge of the Timberjacks now. Buddy hires Mike the Mason and Carl the Carpenter to build a bigger camp for cutting trees. He gives them wood and buys them stone and tools. Mike and Carl build a bigger camp for the Timberjacks. Now the Timberjacks can cut even more wood!

Bill is in charge of the Ranchers. Bill doesn't like all the other pioneers. Bill wants to build a bigger ranch but doesn't want to pay the other pioneers. Bill tries to make a bigger ranch all by himself. Bill cuts wood for years and years, but can't build a bigger ranch. Bill is a poor old man now.

Buddy gets along with his Guild. They like him and put him in charge of everyone. He is too important to be on this world anymore. They bring him home and pay him lots of money to be in charge of things. Buddy is rich and important now!

Bon is too important to get along with his Guild because he is an elf. No one likes Bon. They stop giving him wool to weave, but the Empire takes care of him because he is an elf.
They take him home and find a job for him working for another elf because he is an elf.
The Empire gives him lots of money because he is an elf.
Even though he is an elf he never makes anything of himself. His mom is a sad elf.

Buddy is a good Imperial Pioneer! He works hard and listens to what he has to do. He is on time and he makes sure people like him. Buddy does well wherever he goes. That is why Buddy is such a good Imperial Pioneer!
